

## **Registration of Boiler under the Boilers Act,1923**

### **Procedure:**

Every owner of a Boiler has to Register the Boiler as Per Sec 7 of the Boilers Act, 1923.

The owner has to apply for the Registration of the boiler along with the original databooklet of the Boiler, Prescribed Registration fee (as per Reg 385), Connected Steam Pipe Line drawings (3 Copies) and the name of the approved erector to whom the owner is going to entrust the work.

The owner has to pay the Scrutiny fee for the examination of plans and Particulars of materials as per Regulation 395.

After thorough Scrutiny of the documents and Plans, Boiler will be approved for Registration.

After completion of erection, the owner of the boiler has to contact the Circle Office for inspection of the boiler and the connected pipelines.

Necessary certificate for use of Boiler will be issued by the circle office.

### **CHECK LIST OF DOCUMENTS TO BE SUBMITTED FOR REGISTRATION OF A BOILER:**

- Data booklet of the Boiler in original
- Necessary Registration fee
- Three copies of pipeline drawings.
- Necessary Scrutiny fee.
- Name of the approved erector who is going to erect the Boiler.
